

Question and Answers for Security Tender

QUESTIONS	ANSWERS
<p>Page 31 on the specs indicates control room should be within 50kms of Umalusi. If the control room is more than 50kms from Umalusi are the points awarded and can we still bid?</p>	<p>1, Yes the bid can still be submitted. 2,The evaluation process for the control room in this regard does not involve allocation of points. 3, The site inspection will still be conducted and the 50km radius will however assist in calculating the risk of immediate availability in case of an emergency.</p>
<p>CV's make reference for experience. Do we attach CV with grade C certificates?</p>	<p>CV and proof of PSIRA certification clearly indicating the date of registration, membership number, etc. must accompany the tender document.</p>
<p>Can tenderers supply grades that are higher than grade C?</p>	<p>Yes</p>
<p>The firearms requested is 8. Day and night shift security use the same firearms and exchange during shifts. Should we still have 8 firearms?</p>	<p>As per the discussions and explanations provided during the compulsory site briefing session the quantities hereof has been ammended to 4 subjected to the fact that there will be an exchange procedure at the end of every shift. See the ttached revised pricing schedule.</p>
<p>Can the tenderers install a safe box for the firearms to be kept?</p>	<p>As per the Building Regulations, Firearm Control Act, there are certain ifrastructural requirements/compliances that must be in place and of which currently our building(s) do not comply with.</p>
<p>The 2 supervisors are they for same shifts or 1 during day and 1 at night?</p>	<p>There has to be a supervisor during the day. If the supervisor is part of the shift there has to be another officer/team leader identified in this regard. One of the night shift officers will be identified as a team leader.</p>
<p>Does Umalusi have fire arm safe onsite and if contractor will be allowed to install safe onsite</p>	<p>As per the Building Regulations, Firearm Control Act, there are certain ifrastructural requirements/compliances that must be in place and of which currently our building(s) do not comply with.</p>
